

## DAWES BEGINS WORK ON BUDGET SYSTEM

### HAS CALLED MEETING OF CABINET OFFICERS TO BE HELD WEDNESDAY

President Harding will Preside at Session--Mr. Dawes Intimates that He Expects to Impress upon Spending Departments full Meaning of the Word Economy.

(By The Associated Press)  
WASHINGTON, June 27.—Plans preparatory to the establishment of the new federal budget system which becomes operative Friday, began to take tangible form today. As a first step, Charles G. Dawes, director of the budget, at the request of the president, called a conference for Wednesday of all cabinet members and other executive administrative officers at which President Harding will preside. The president also directed Mr. Dawes to draft a tentative form for the new budget within the next thirty days with estimates of the absolute minimum of government funds needed for the fiscal year beginning July 1.

A white house statement called attention to the necessity for economy in governmental expenditures and said that the tentative form of the budget should point the way "as would be done in any ordinary business being confronted with the necessity for economy."

"The president does not assume," the statement said, "as has been the custom under the old system with individual departments that the minimum of governmental expenditures in the year is the amount fixed by congress in the appropriations."

Maximum of Budget  
The maximum of the budget which Mr. Harding has asked to have drafted, is expected to be below the minimum amount provided for in existing congressional appropriations, the statement added, while the economies thus anticipated will be carried on into an alternative draft of the budget for the fiscal year beginning July 1, 1922. It was made plain by Mr. Dawes' associates at the treasury that he intends to impress upon the heads and subordinate officials of the "spending" departments of the government the full meaning of the word "economy."

Mr. Dawes said personally he was prepared to aid in paring to the limit. Mr. Dawes did not waste words in his call for the conference. The statement was brief being addressed to "the heads and assistant heads of executive departments and independent governmental establishments, chief clerks, chiefs and assistant chiefs of bureaus and offices therein."

The eight men are charged with trying to incite riot and disorderly conduct.

#### ADVOCATE GRAIN GRADES BE MODIFIED

#### NORTHERN BAPTISTS SELECT NEW YORK WOMAN PRESIDENT

Sets Precedent Among Larger Denominations of the Country

(By The Associated Press)  
DES MOINES, Iowa, June 27.—With the election of Mrs. Helen Barrett Montgomery of Rochester, N. Y., as president of the Northern Baptist convention today a precedent was set among the larger denominations of the United States. Coincidentally the convention was presided over by a woman, Mrs. M. Grant Edmonds of Pasadena, California, one of the vice presidents.

Officers were elected of the American Baptist Home Missionary society, the American Baptist Foreign Missionary society, the Woman's American Baptist Home Mission society, the Woman's American Baptist Foreign Mission society and the American Baptist Publican society.

Outline Cooperative Methods  
Features of the day's business included a report by Baptist delegates to the federal council of Churches of Christ in America, outlining cooperative methods in many phases of church work and prevention of duplication of service.

Sounding the warning that such cooperation must be real the report says:

"We must guard against the super-church. The council should not undertake administrative functions save where it has been charged to do so by much more than majority vote of the denominations represented."

It was voted to allot thirty-five thousand dollars as the Baptist share of the expenses of the council.

Goals set by North Baptists five years ago have been far exceeded despite the war, Shaller Mathews of Chicago, reported.

### PLAN TO COMBAT UNITED STATES GRAIN GROWERS

Organization is Being Formed to Oppose Class Legislation

(By The Associated Press)  
CINCINNATI, O., June 27.—A national organization pledged to combat all class legislation wherever it appears in this country, was formed here today. It was stated that an active campaign in opposition to the United States Grain Growers, Inc., will be instituted at once under the auspices of the National Grain Dealers' association.

Representatives of business organizations were present and while the immediate object of attack will be made against the United States Grain Growers' reported campaign to pool the farmers' grain under a six year contract, the scope of the organization as planned is much wider. Resolutions adopted declared that the grain trade and general business interests are directly menaced by adverse legislation, both state and national, arising on demand of organized special interests.

The resolutions declare such legislation to be "inimical to the general welfare and 'deplore the attempt of special interests by class legislation to break down the present competitive individualistic business principle and the substitution therefore of bureaucratic control'."

Expect Many to Join  
It was said practically all of the great business associations concerned with the handling of foodstuffs, either in the raw or finished state are expected to join the association. These include the United States chamber of commerce; the millers' national federation and the flour association; the National Hay Dealers' association; the National Cotton Growers' association; Growers of Potatoes and Produce; Wholesale Grocers' association; Country Grain Elevators; all grain exchanges, country banks and exporters on both the Atlantic and Pacific coasts.

The work of organization will be carried on by the Grain Dealers' National association, supported by the interests represented at the meeting today. A central organization to do the actual work will be established at Chicago at once. A temporary executive committee was appointed as follows:

R. I. Mansfield, chairman, Chicago; L. W. Forbell, New York City; Joseph E. Lawler, Dallas, Texas; John J. McHugh, Minneapolis; and B. F. Hargis, Kansas City, Mo.

In his testimony Mr. Brunner outlined the course of a strike of marble workers in a plant of the Liquid Carbonic company which, he said, had cost the concern between six hundred thousand dollars and seven thousand dollars in loss of business and cancelled orders.

He also told of a one thousand one hundred dollar payment to William Schardt, business agent, already indicted, as a result of the Dudley committee disclosures, for permission to install a soda fountain in a drug store.

### MODERN METHODS PUT TO ROUT ARMY OF GRASSHOPPERS

Threatened Invasion of El Paso County, Colorado Stopped

(By The Associated Press)  
COLORADO SPRINGS, Colo., June 27.—Modern methods of fighting insect pests have put to rout the grasshopper army that has threatened for the last three days to occupy El Paso county, Colo.

J. G. Hale, county farm agent, announced tonight. Originating in the northern portion of the county countless millions of grasshoppers were advancing northward at the rate of a mile a day. Mr. Hale said, eating virtually all vegetation in their path as they proceeded.

On last Saturday the army had entrenched itself over a front of more than fifteen miles. It was estimated today. The invaders were met by a farmers' army of defense. Led by Mr. Hale and a government pest expert, 200 farmers met the grasshoppers with poisoned bran and molasses. Irrigation ditches are piled high with the dead insects over a large area.

The danger of further invasion tonight was considered over.

### BELIEVE LAWRENCE KILLED TEN PERSONS

Kentucky Authorities Believe He Killed Himself and Other Relatives—Then Drenched House with Oil, Set It Afire and Shot Himself.

(By The Associated Press)  
Mayfield, Ky., June 27.—County authorities today were working on the theory that Ernest Lawrence murdered ten persons on his farm home near here Saturday night, drenched the house with oil, set it on fire and then killed himself.

Acquaintances today told Sheriff McCann that Lawrence had suffered from what they described as "spells" which led the officer to believe that Lawrence's illness suddenly had developed into a fit of insanity which prompted him to wipe out his own family, the family of Otis Drew, his brother-in-law, and Drew's brother, Delmer Drew.

Three harried bodies of the dead, two women, three men, five infant boys and one infant girl, were so badly burned that physicians were only able to guess how they were slain. One of the women, however, bore what were believed to be wounds, indicating that she probably had been killed with an axe which was found near her body. A revolver with six expended shells, a rifle containing an empty shell and a shot gun also were found in the ruins of the home, indicating to the authorities that some of the victims at least had been shot to death.

### PRACTICALLY ALL R. R. IN COUNTRY INCLUDED IN CUT

Labor Board Addendum Makes Total of 204 Roads Affected

(By The Associated Press)  
CHICAGO, June 27.—Employees on virtually every railroad in the country will feel the 12 per cent wage cut ordered by the railroad labor board to take effect July 1, following a supplemental decision today extending the order to nearly 100 additional roads.

The wage slash authorized by the board on June 1 to take effect next Friday originally contemplated 104 railroads, altho not all employees were affected on all roads. Today's addendum to that decision included 210 railroads many of which were parties to the original decision but which returned to ask reduction for classes of their employees not covered in the first order.

The reductions authorized today were identical with those of the original order, the only change being the addition of rates for marine workers in certain harbors and of a section covering restaurant and dining car employees, whose wages were ordered reduced by sixty per cent of all increases received since February 23, 1920.

Practically All Road Included  
With exception of a few subsidiary lines whose parent owners filed petitions for reductions every railroad in the country affected by decision No. 2, the labor board's \$600,000 wage award of July 1920 has now been authorized to reduce wages an average of 12 per cent.

Most of them have received such permission for all classes of employees. In addition nearly two score other roads which voluntarily applied the increased scale fixed by the board in 1920 also have received authorization to make a similar cut.

Basing its figures on the normal number of employees on all roads affected by decision No. 2, the labor board recently estimated that its 12 per cent reduction would lop approximately \$400,000,000 from the nation's railroad wage bill if applied to all employees.

Nakanishi, of the visiting Japanese parliamentary delegation to this country, said in an address tonight at a dinner given in their honor by several members of congress who visited the Orient last summer. Secretary Hughes, Baron Shidehara, the Japanese ambassador, Chairman Porter of the house foreign affairs committee and other officials were present.

"Following the great war," Mr. Nakanishi said, "the people of Japan have become very much interested in foreign affairs. Heretofore during the parliamentary elections the seldom referred to international affairs but today even in the rural districts our people are eager to hear the discussions of world questions, x x x Therefore the people of Japan are following our journey with great interest and the cordial reception we have received at the hands of your congress will create an impression in the minds of the Japanese people beyond all expectations."

### WILLIS-CAMPBELL BEER BILL PASSED BY HOUSE MONDAY

Vote is Twenty-One More Than the Necessary Two Thirds Majority—Representative Hill Made Charge That Wayne B. Wheeler Drafted the Anti-Beer Bill

(By The Associated Press)  
WASHINGTON, June 27.—By a vote of 250 to 93 the house tonight passed the Willis-Campbell bill to prevent the sale of beer to the sick and sent it to the senate with expectations of its final enactment before the end of the week.

The vote, which was 21 more than the necessary two-thirds, was taken after four hours of stormy debate.

In closing debate for the opponents Representative Hill, Republican, Maryland, threw the house into considerable disorder by charging that Wayne B. Wheeler, general counsel for the Anti-Saloon League, had drafted the bill.

Pointing to the league lawyer in the gallery and calling him by name, Mr. Hill brought a wild shout from the prohibition element, some of whom stood until quiet was restored.

### LABOR WILL ASK RECOGNITION OF IRISH REPUBLIC

Gompers Instructed to Take up Matter in Washington at Once

(By The Associated Press)  
DENVER, Colo., June 27.—Organized labor of America will immediately call upon President Harding, his cabinet and congress to bring about recognition of the Irish republic and protest to Great Britain against the brutal and uncivilized warfare now being conducted in Ireland.

In accordance with the instructions of the convention were last week the executive council of the American Federation of Labor authorized President Gompers to take the Irish matter up at once with the government officials at Washington.

President Gompers was instructed to send to President Harding and members of congress an appeal for the adoption of the Johnson-Nolan bill which provides a wage not less than \$3 a day for all federal employees.

Protest Postal Increase  
The council also will send to congress a protest against another increase in second class postal rates which is to go into effect July 1. The second class zone system was declared to be unjust and "un-American."

Congress is asked to "annul this obnoxious legislation enacted under pretense of a war revenue," and is requested to make a thorough investigation of the entire postal service and postal rates.

The council adjourned until August 22 when it will meet either in Washington or Atlantic City to take up the major problems confronting organized labor and carry out the instructions of the convention.

P. & St. L. shops both in Jacksonville and Springfield have been laid off since Jan. 15.

GENERAL STRIKE THEORY FAVORED BY SOCIALISTS  
Believe it Powerful Weapon in Hands of Working Classes

(By The Associated Press)  
DETROIT, Mich., June 27.—The Socialist National convention today endorsed the general strike as a theory and a "powerful weapon of the working class," but declared its advocacy in the United States under present conditions would be folly. In an attempt to authorize use of the political strike to force repeal or passage of legislation was voted down.

"Constructive criticism" of labor unions from within was adopted as party policy; and a resolution calling for a survey of radical and labor organizations to determine how many would co-operate in the Socialist movement was passed.

Defer Action  
After two hours of heated argument, a vote on the resolution of the 13th ward local of Chicago to expel members adhering to the third (communist) international was deferred until tomorrow.

The Wisconsin delegation offered a resolution to invite representatives of radical labor organizations, the Farmer-Labor party and Non-Partisan league to a unit conference.

The plan was defeated in favor of Morris Hilquist's resolution calling for a survey of the other organizations only.

The resolution authorizing Socialists to remain in the labor unions to remind those organizations from within, declared the party considered it a "supreme duty" not to out the fundamental economic underlying policies and principles of the organized labor movement.

Chicago's failure to learn from the past its lessons of the past and its inability to face concretely and honestly the true light of historic perspective the economic and political questions of the day.

Franklin Roosevelt is sponsor for the Wilson Foundation, a great fund to be raised for the furtherance of the Wilson ideals. No more definite explanation has thus far been given, but the admirers of Mr. Wilson—and they are many—are expected to contribute liberally toward the fund.

One of the chief legal advisers for the Anti-Saloon league in New York City has resigned because he believes that provisions of certain pending national legislation are too drastic. There may be some other reason also for his disaffection, but it is true that there is danger in making anti-liquor laws too severe.

There are plenty of difficulties in the enforcement of a reasonable law without putting in provisions almost impossible of enforcement or of a kind to make otherwise law-abiding citizens feel resentful.

## THE DAYS ARE PASSING.

Senator Frelinghuysen, who is the author of the bill which purports to give to the government a reasonable oversight of the coal industry, is an insistent advocate of seasonal freight rates. He declares that if lower freight rates are given for the summer season that they will serve as a distinct incentive for coal shipments and so relieve the later pressure of business.

The idea may be good but unless action is hurried along the seasonal reductions for this year will be without avail. The heavy movement of coal normally begins at least by September 1 and that date is only about two months distant.

## THE DYE INDUSTRY AND ARMAMENT.

The dye industry, it seems, has a direct relationship to arma-

ment. The Bache Review in stating that some steps must be taken to save the dye industry which was developed during the war time, says that the nation which has the greatest dye industry is the best armed. It is averred that if Germany again secures a monopoly of the dye industry that Germany will be the best armed nation in the world.

The reason is that dye works can without delay be turned to the manufacture of poison gases and other products that are essential in the prosecution of war. Most people have not understood this particular relationship between armament and the dye industry. The Review quoted says: "The Germans made every pound of their poison gases in their dye works without changing them in the least. They had the factories ready to their hand, they had the men and the materials, they had everything."

"When the Germans made their first gas attack, it was an experiment. That was in 1915. The Allies stood on the very edge of utter defeat. Had the Germans known the value of their new experiment, had they prepared it in advance on a large scale and driven it home ruthlessly, the defeat of the allies would have taken place, then and there, irrefragably."

"The great demand of the world today is for disarmament, but disarmament is limited by national defense. If we disarm, Germany is left armed. As long as Germany maintains a dye monopoly, or is in a position where she may regain it, she has an armament for chemical warfare superior to that of any other nation. As long as she maintains it in full activity, as it was at the end of the war, she will remain dangerously armed, even if we destroy every gun, every tank, every plane, every rifle, and every ship in the German empire."

## OBSERVED BIRTHDAY OF FORMER RESIDENT

The Los Angeles News in a recent issue gives a news story of a birthday celebration for William T. Osterholt, for a number of years a resident of Jacksonville, but who has been living in California for a decade or more. A copy of the paper was received by J. Marshall Miller. The article was as follows:

"William T. Osterholt, popular deputy sheriff and ex-monarch of Jinnistan Grotto, celebrated the anniversary of his 53rd birthday last Sunday, June 5 at Hermosa Beach, where he has a summer cottage. Mrs. Osterholt had a fine dinner prepared and a number of friends dropped in to wish Mr. Osterholt many happy returns. A neighbor sent in a lamplie pie, knowing that Billy T. is an epicure and he admits he never tasted anything better in his life."

"His son in Princeton university sent him a handsome present and he was remembered by a number of friends. One of his friends said: 'Billy Osterholt looks to be only forty, is as active as a young man of twenty-five and has the buoyant spirit of a boy of eighteen. He'll never grow old—as long as he can attend a Masonic lodge and arrange the entertainment program.' The News extends congratulations and felicitations."

## MISS ANNA HEGARTY BRIDE OF A. H. SPREEN

Morning Ceremony Yesterday Unites Local Couple.

In a pretty ceremony at Our Savior's church yesterday morning at 8 o'clock Miss Anna H. Hegarty and Albert H. Spreen were united in marriage. The couple were attended by Miss Elizabeth Hegarty and John Hegarty, sister and brother of the bride. The Very Rev. Father Formaz officiated.

Before the ceremony Miss Agnes Devlin sang, "Ave Marie," and Charles Devlin sang Panis Anglus. In the wedding party were Leo Hegarty and Martin Loneragan, ushers and Mary Elizabeth and Helen Louise Lair as flower girls.

The bridal gown was of white crepe and a tulle veil caught back with pearls completed the bride's costume. She carried a shower of bride's roses. The bridesmaid wore lavender organdie, a picture hat to match and carried a bouquet of Russell roses. The little flower girls were charming in their pink and blue organdies and carrying a basket of sweet peas.

After the ceremony an elaborate wedding breakfast was served at the home of the bride's mother, Mrs. Mary Hegarty at 1402 East Railroad street.

Seventy-five friends and relatives of the couple were guests at the breakfast. A color scheme of pink and white carried out with cut flowers and ferns, was used in the Hegarty home. A large number of lovely wedding presents, gifts of the many friends of the couple, were to be seen at the house.

The couple left yesterday afternoon the south where they will take an extended trip. They will make their home on Mound avenue.

The bride is the daughter of Mrs. Mary Hegarty and has always lived in this city. She attended the parochial schools and is popular among her many friends. The groom is the son of Mr. and Mrs. William Spreen of Mound avenue, and is a baker at the New System bakery. Both he and his bride have the best wishes of their many friends.

The out-of-town guests included Mrs. Maurice Scott of Rochester, Ill.; Miss Myrtle Kloppe and Oscar Kuder of Springfield; Mrs. Robert McHenry and son, Harry, of Franklin, Mo.; Oscar Rapsiller, of Galesburg; Misses Anna and Leta Clayton of Murrayville; Miss Mame Hegarty, Chapin; Mr. and Mrs. Paul Loneragan and son; Mr. and Mrs. William Loneragan and son; Mr. and Mrs. Richard Loneragan and daughter, and Miss Marie Langdon, all of Murrayville.

I brand as absolutely false any statement made by any source that "prices of manufactured goods are now back to before-the-war" levels. I am paying at present one hundred per cent more for woolen cloth than before the war, very much more for labor and a great deal more for overhead of every kind. If you are waiting for a drop in prices in any standard line line of merchandise, made

up of high grade labor and high grade fabrics of any kind, you are on a false lead. If you will consult any banker or other competent authority you will learn that the standard of living of the worker was raised by the war and in the United States of America it is going to be maintained by every good citizen, and I, for my small part, support this principle within reason.

## SUMMER SCHOOL OF RELIGIOUS EDUCATION

The second annual session of the Northwestern School of Religious Education held on the campus of Northwestern university from June 17 to 25 has just closed. This school is one of a series of schools of like nature that are being held in various parts of the United States under the auspices of the board of Sunday schools of the Methodist church.

These schools offer courses in all phases of modern religious education by some of the ablest instructors and specialists in the various branches. The school is attended by pastors, Sunday school officers and students, religious educational directors and those interested in Boy Scout and Camp Fire programs. There were enrolled about one hundred and seventy-five representing about seven states, one student coming from West Virginia.

The school work consumed the morning hours and the afternoon was devoted to study, recreational activities and special trips to places of particular interest. The chapel address each morning was made by Rev. L. H. Bugbee of Minneapolis, Minn. Special addresses were made by Bishop Theodore S. Henderson, Bishop Thomas Nicholson and Dr. Henry H. Meyer.

Those who had the privilege of attending this school were well pleased with the character of work offered and the effort that was made to adapt the program to the needs of the individual. Suitable resolutions were enthusiastically passed endorsing the school and agreeing to advertise and boost the school in their immediate vicinity and individual churches. Rev. E. L. Pletcher had registered to attend but was detained on account of illness. T. V. Hopper was sent by the Grace Sunday school and was the lone representative from the Jacksonville district.

The Woodson Band will give a concert and ice cream supper in the school yard at Woodson on Tuesday evening June 28.

The Woman's Missionary society of Central Christian church will meet Friday afternoon at 2:45 sharp in the parlors of the church. The new officers will be in charge and the work for the year explained. The members are urged to be present and all women of the church are cordially invited.

## AMERICAN LEGION NEWS NOTES

John G. Emery the new national  
commander of the American  
Legion, hails from Grand Rap-  
ids, Mich. He was born on the  
Fourth of July forty years ago.  
His election, which was by accla-  
mation of the national executive  
committee, took place at the na-  
tional headquarters at Indianapolis.  
At the same time Thomas  
J. Bannigan, of Hartford, Conn.,  
was elected vice commander, suc-  
ceeding Mr. Emery, who now fills  
the vacancy caused by the death  
of F. W. Galbraith, Jr.

Mr. Emery is a real estate oper-  
ator. He has served as president  
of the Grand Rapids Real Estate  
board and as one of the commis-  
sioners of that city. He is presi-  
dent of the First Division club.  
His military record dates from  
his entrance to the Second Offi-  
cers' Training camp at Fort Sheri-  
dan, Ill., August 27, 1917. He  
attended various schools in  
France and was assigned to the  
18th Infantry of the First Divi-  
sion. He commanded a company  
of this regiment in the Montdi-  
ler-Noyon and Aisne-Marne of-  
fensives and became a major Sep-  
tember 1, 1918, following the St.  
Mihiel and Argonne offensives.  
He was severely wounded by shell  
fire October 9, and was immedi-  
ately sent to the United States.  
He was discharged from the hos-  
pital and from the army March  
31, 1919. He has been active in  
the American Legion affairs ever  
since.

Mr. Bannigan, the new vice  
commander has served as adjut-  
ant of the Connecticut depart-

ment of the American Legion for  
three years. During the war he  
served as a captain. He is a mem-  
ber of the Legion's national com-  
mittee on war risk insurance and  
compensation.

George K. Manos, proprietor of  
the Greek Candy Kitchen at Jas-  
per, Ind., a member of the Ameri-  
can Legion, humiliated Peter  
Sturgis, a professional wrestler,  
known as the "masked marvel" at  
Jasper recently. The "masked  
marvel" came to town with the  
boast that no wrestler could  
"stay with him five minutes with-  
out getting pinned." Manos, who  
had been coached by members of  
his Legion post, accepted the chal-  
enge and not only remained with  
the "marvel" five minutes, but  
hurled his opponent over his head  
and floored him squarely. After  
the victory the "masked marvel"  
sent his wrestling partner to meet  
Manos. The Legionnaire threw  
him with even less difficulty.

Refused to admit a one-legged  
overseas veteran to the swimming  
tank at a New Jersey amusement  
place recently caused the indi-  
cation of a crowd of amusement  
seekers, who demanded the veter-  
an's admission. Commander E. H.  
DeLaney, a retired naval officer,  
was present when the crippled  
soldier was gruffly turned away  
by the ticket seller. DeLaney ap-  
pealed to the manager of the park  
and the latter explained that a  
clause in the insurance contract  
against accidents made it impos-  
sible to admit any legless or arm-  
less person to the tank. DeLaney  
believes the insurance contracts  
of amusement parks should be  
changed to give crippled soldiers  
free access.

The third annual convention of  
the American Legion of Nevada  
will be an out-of-doors affair on  
the shores of Lake Tahoe. The  
tentative date is July 25.

The body of William S. Milton,  
overseas veteran, who was acci-  
dentally shot and killed at Rich-  
mond, Va., was taken in charge  
by the American Legion and ship-  
ped to Caryville, Fla., for burial.  
The Woman's Auxiliary contrib-  
uted flowers to accompany the  
body.

Rev. John W. Inzer, national  
chaplain of the American Legion,  
has begun a six weeks' speaking  
tour on which he will speak chief-  
ly upon the subjects of American-  
ization and citizenship. The fol-  
lowing cities are included in his  
itinerary: Nashville, Memphis,  
and Jackson, Tenn.; Little Rock  
and Pine Bluff, Ark.; San Diego,  
San Francisco, Cal.; Portland,  
Ore.; Salt Lake City; Denver; To-  
peka; Kansas City, Mo., and Pa-  
ducah, Ky.

General Pershing, in a recent  
address at a banquet in his honor  
at Lincoln, Neb., said that "no  
plan for future preparedness can  
be carried out without the sup-  
port of the American Legion."  
The general subject of the toast  
was "National Preparedness."  
Among the speakers were: Chan-  
cellor Avery of the University of  
Nebraska; Earl Cline, past state  
commander of the American Leg-  
ion; Gen. Omar Bundy, com-  
mander of the Seventh Army  
Corps and Robert G. Simmons,  
department commander of the  
American Legion.

The American Legion employ-  
ment bureau at Los Angeles ob-  
tained employment for 1,562 for-  
mer soldiers and sailors during  
the month of May. This number  
is about 500 less than the jobs  
obtained for former service men  
in April, but the reduction is as-  
cribed to the continued bad weather  
in May and the marine  
strike.

## STORM CAUSED BIG LOSS IN WYOMING

The Journal in receipt of a  
letter from G. W. Henderson, of  
Casper, Wyo., telling something  
of the severe storm there. Light-  
ning struck a great oil tank and  
heavy fire loss resulted, for the  
Midwest Refinery Co. has a huge  
storage yard in Casper.

Mr. Henderson writes that  
there was a veritable cloud burst  
with resulting damage to some  
buildings in Casper and to crops  
in the surrounding country. The  
former resident sent several post-  
card pictures showing the refinery  
burning after the lightning  
flashed.

## DR. RAMMELKAMP BACK FROM TRIP TO CORNELL

Attended Reunion of H's Class at  
Ithaca — A \$5,000 Anonymous  
Gift for Illinois College.

Dr. C. H. Rammelkamp has re-  
turned to Jacksonville after a ten  
days' visit in the east. First he  
attended the twenty-fifth anniver-  
sary of his class at Cornell, and  
was one of the speakers at the ban-  
quet which was a feature of the  
reunion. While at Ithaca he saw  
a very interesting and closely con-  
tested baseball game between  
Pennsylvania and Cornell. The  
game was one of 15 innings and  
resulted in a score of 6 to 5 in fa-  
vor of Pennsylvania. After two  
days at Cornell the local man went  
to his former home at South Or-  
ange, N. J., for a brief visit.

Later Dr. Rammelkamp went to  
New Haven, Conn., having been  
chosen by the trustees of Illinois  
college to represent the local in-  
stitution at the inauguration of  
Dr. Rowland Angell, president of  
Yale university. The inaugura-  
tion ceremonies were very impres-  
sive and attended by several thou-  
sands, including some of the  
most prominent educators and  
men and women in public service  
in the United States and foreign  
countries.

One of the most interesting  
events on the inauguration and  
commencement program was the  
conferring of an honorary degree  
upon Madame Curie. Another in-  
teresting feature was the address  
by ex-President Taft at the alumni  
luncheon.

Dr. Rammelkamp was greatly  
pleased upon his arrival in New  
Haven to receive a letter from H.  
J. Dunham of Chicago, announc-  
ing a gift of \$5,000 to the endow-  
ment fund of the college from an  
anonymous donor.

While at Yale Dr. Rammelkamp  
witnessed an interesting baseball  
game between the Yale and Har-  
vard teams, in which the Harvard  
men won by a score of 9 to 2.

ROUTINE BUSINESS  
AT COUNCIL SESSION

Ald. Chapin in Mayor's Chair — Will Introduce Ordinance Governing Filling Stations — Next Meeting July 5th.

The regular meeting of the city council Monday night was very brief, as little other than routine business was given attention. The roll call showed Clerk Scott, Aldermen Chapin, Cain, McGinnis, Loneragan and Elmie present. The council elected Alderman Chapin mayor pro tem in the absence of Mayor Crabtree.

After the reading of the minutes approved bills were ordered paid. On motion of Alderman Loneragan the public improvement committee be and the contract was awarded to Otis Hoffman for the completion of sidewalks on certain streets where the property owners have failed to comply with the ordinance. An order was made also notifying the contractor to complete all contracts for work previously awarded to him.

Alderman McGinnis brought to notice the question of tapping a sewer in Broadway alley. The matter was referred to Street Commissioner White.

Alderman Cain mentioned that persons who wished to install gasoline filling stations make applications to the police department and said that there is no ordinance governing this matter. He gave notice that he will introduce an ordinance at a later time providing for the control of filling stations which take up sidewalk space but because of the risk which the city incurs.

A question as to a boulevard change to be made at the Richards store on South Main street because of a filling station was referred to Street Commissioner White.

The presiding officer called attention to the fact that the next regular meeting date is July 4 and the council therefore decided to adjourn to Tuesday, July 5.

AUTOMOTIVE MEN  
HELD MEETING

Business Affairs Discussed Following Dinner at the Dunlap.

The regular meeting of the Jacksonville Automotive Dealers association was held Monday night in the private dining room of the Dunlap hotel. Manager Rule setting his guests down to a fried chicken supper which the boys enjoyed thoroughly.

As there was nothing but routine business to be taken up the meeting adjourned at 8 o'clock.

The association's committee on hard roads reported that there seemed to be no chance of getting work done on the roads in Morgan county until prices of material and freight rates were lowered so contractors could be found to undertake the work at the rate per mile allowed by the state. The committee was ordered to continue its work and to report any progress made.

A motion was made and passed unanimously to the effect that Mayor E. E. Crabtree and the council should be complimented on the interest shown and work done in looking after bad places in the city's pavements; that a great deal of credit is due in view of the lack of really sufficient funds for the purpose.

## A TRAVELING SHOW

Five ponderous looking houses built on trucks arrived in the city yesterday and attracted considerable attention. They were the transportation system of the Jolly Jack's Jokers traveling show. They had closed a season at Nortonville and had set their compass for Arenzville. Their trucks looked as if they had encountered considerable mud but they managed to get along very well.

Manly Hettick and his sister, Miss Georgia Hettick, both of this city have gone to Quincy where they will be employed by a publishing company. The couple expect to travel thru the northern and western states.

SOUTH END CAR  
JUMPS THE TRACK

Leaves Rails in Vandalia Road Saturday Night—Harry Potter and Earl White Slightly Injured.

T. J. Brennan, Harry Potter and Earl White had a narrow escape from serious injury Saturday evening when a street car on which they were riding jumped the track in Vandalia Road near the residence of George Bader.

The three men were en route to Nichols park when the accident occurred. When the car left the track it turned about half way around standing across the road. The three men were thrown from the car into the ditch at the side of the road, Potter alighting on his head.

White and Potter received bruises and cuts that required and cuts that required the services of a physician while Brennan escaped with only a few scratches, tho he was rather sore from his experience.

The car was of the open style and was in charge of Motorman Austin and Conductor Buchanan.

According to the story of the accident as told by Mr. Brennan, who is secretary of the park board, the motorman told his passengers as the car turned into the Vandalia road at the Masters corner to get up in the middle of the car as he was going to give them a rough ride.

Mr. Brennan said that he put the juice to the motor and was soon traveling at full speed. The car evidently struck a low place in the track and the next thing the passengers knew they were all in the ditch.

Traffic was blocked for some time by the accident, the crowds going to and from the park having to walk from the Bader residence to the park and back there to take the car.

## FIGHT CAUSES ACUTE HOUSING SITUATION

Will be Few Places to Sleep in New York or Jersey City by Friday Night—Many Will Sleep in Their Pullmans on the Jersey Flats.

New York, June 27.—The Dempsey-Carpenter bout has made New York's housing problem even more acute.

Five days before the bout, the vanguard of fight fans has invaded the city, with thousands more due from other parts of the country and from Europe before the heavyweights climb into the ring.

Out of towners will form a large part of the hundred thousand that is expected to swoop down on Jersey City next Saturday. Already many of the leading hotels have hung out the "standing room only" sign and it will require a house hunter of rare skill to locate shelter Friday night. Indeed many visitors from the west are planning to lodge in their pullmans over on the Jersey flats.

## DEMPSEY WORKS AT TOP SPEED MONDAY

Engages in 55 Minutes of Strenuous Work After It Had Been Announced Champion Would Rest.

Atlantic City, N. J., June 27.—The word has been passed out at Jack Dempsey's training camp today that the champion would take a day off to rest 24 hours before plunging into the final two days of training.

Guards were stationed inside to gates, which were locked to the public and newspapermen.

Jack Kearns, Dempsey's manager left for New York early in the day, leaving explicit instructions to have Dempsey do nothing but rest. This program was carried out until Dempsey awakened from a refreshing nap late in the afternoon. Then, to the surprise and disgust of his sparring partners, he ordered them to the study hangar a quarter of a mile back of his camp.

With only eight spectators looking on outside of the champion's handlers, Dempsey toiled for 55 minutes at terrific speed, the work being equivalent to 13 rounds of boxing.

Dempsey whaled away at the light punching bags for three rounds and then drove vicious rights and lefts into the heavy felt stuffed bag for two rounds.

After two rounds of shadow boxing he boxed two rounds each with Eddie O'Hare and Larry Williams that were more in the nature of sparring than training romps.

Dempsey tore into O'Hare with such speed that the New York middle-weight was dead tired and puffing badly after two rounds. It has been O'Hare's style to dance in and out with light jabs in an attempt to get inside Dempsey's leads, but today he retreated before the shifting hooking Dempsey to escape being knocked flat. Dempsey hung O'Hare on the ropes with a left hook, but realizing that O'Hare had been dazed did not follow it up.

Williams, the trial horse of the camp was badly punished around the body during the two rounds he was in the ring.

Dempsey then did some calisthenics.

## WESTERN TENNIS PLAYERS IN LEAD

Take Honors of First and Second Rounds of Annual Intercollegiate Championship Tournament.

Philadelphia, June 27.—Representatives of western institutions triumphed over those of the east in the first and second rounds of the annual intercollegiate lawn tennis association championship tournament which began today at the Merion Cricket club, Haverford, Pa.

Eight westerners were entered in the tourney and all came thru. They are James Davies and Philip Neer, Leland Stanford; Wallace Bates and Edmund Levy, University of California; McNeil Drumwright and C. E. Granger, University of Texas; LeRoy Weir of Wooster College, and F. Bastian, University of Indiana.

The hope of the east in the singles competition experts said tonight seems to rest on Carl Fischer, the University of Pennsylvania captain and Fenno, of Harvard. Fenno won his two matches rather easily defeating C. W. Saunders, Dartmouth, 6-1, 7-5, and E. McLaughlin of Columbia, 6-1, 6-10. Fischer won from Dickinson of Princeton, 6-2, 6-1, and M. Sweeney of Loyola, 8-6, 6-4.

The doubles tournament is to start tomorrow.

Freedman in Perfect Condition

Benton Harbor, Mich., June 27.—E. A. MacAuley, secretary of the Michigan boxing commission examined "Sailor" Freedman today and pronounced him in perfect condition. Somebody wrote the commission that Freedman was not in physical shape to meet Champion "Heavy" Leonard here July 4th, and MacAuley came down from Lansing to examine the Chicagoan. Freedman let down in his training today as he had only two pounds more to take off and he says that will be easy between now and the time of the bout. Leonard was not expected to arrive before Wednesday.

Rumors that Governor Grosbeck may not allow any more championship bouts in Michigan has caused much gloom. Such a decree would prevent the appearance of Jack Dempsey on Labor Day.

Ted Lewis Wins English Title

London, June 27.—(By The A. P.)—Ted (Kid) Lewis tonight defeated Jack Bloomfield on points in a twenty round bout for the middleweight championship of England.

Ted (Kid) Lewis was former welterweight champion of the world. He won the title by defeating Jack Britton at Dayton, Ohio, in June, 1917, but the title reverted to Britton in 1919 when Britton knocked Lewis out in nine rounds.

## CARPENTIER SHOWS HIS BAG OF TRICKS

Trics Them all on His Sparring Partners—These Individuals Have Hard Time

Manhasset, N. Y., June 27.—In six rounds of sparring this afternoon Georges Carpentier gave all of his tricks a tryout, much to the discomfort of Chris Arnold, the Buffalo light heavyweight. Joe Jeanette and Paul Samson, a 200 pounder who joined the staff this morning.

Georges boxed each of them two rounds, starting with Arnold. Chris started at him full speed but as in their previous workouts his blows failed to land clearly. Arnold said afterwards that Carpentier was the hardest thing to hit he has ever seen. With Paul Samson, Georges had a slugging match and tho he pulled his punches he had the big fellow groggy and was compelled to ease up.

In his two rounds with Jeanette the challenger worked for the perfection of his right uppercut which seemed even more vicious than his short overhanded right.

This morning the challenger went on the road for about two hours and took things easy but he worked hard when he came to the examination for half an hour of exercise before lunch. Tomorrow Carpentier will rest after a jaunt in the woods and calisthenics. He is to work again Wednesday and Thursday and then will take things easy until he meets the champion on Saturday afternoon. Extra precautions for the protection of the challenger were taken today by Manager Descamps. Two armed guards were placed on duty at the camp and will maintain a patrol until Saturday.

**REMEMBER** to ask  
your grocer for Calu-  
met Baking Powder and be  
sure that you get it—the In-  
dian head on the orange label.  
Then forget about bake  
day failures. For you will  
never have any. Calumet  
always produces the sweet-  
est and most palatable foods.  
And now remember, you  
always use less than of most  
other brands because it pos-  
sesses greater leavening strength.

**Now Remember—  
Always Use**

**CALUMET  
BAKING POWDER**

There is no waste. If a  
recipe calls for one egg—two  
cups of flour—half a cup of  
milk—that's all you use.  
You never have to re-bake.

Contains only such ingredi-  
ents as have been officially  
approved by U. S. Food Authorities,  
is the product of the largest, most  
modern and sanitary Baking Pow-  
der Factories in existence.

Pound can of Calumet contains full  
16 oz. Some baking powders come in  
12 oz. instead of 16 oz. cans. For  
you get a pound when you want it.

Calumet  
Columbia  
Recipe  
—4 cups sifted  
flour, 4 level tea-  
spoons Calumet  
Baking Powder,  
1 tablespoon sug-  
ar, 1 teaspoon  
salt, 2 eggs, 2

milk. Then mix  
in the regular  
way.

## Daily Market Report

**WHEAT PRICES**  
CLOSED HEAVY  
By Associated Press.

CHICAGO, June 27.—Misgiv-  
ings that there may soon be a  
period of burdensome receipts  
had a bearish effect on the wheat  
market today. Prices closed  
heavy 1½¢ to 2½¢ net lower with  
July \$1.28 to \$1.28½ and Sept.  
\$1.23½ to \$1.23¾. Corn lost  
1½¢ to 1¾¢ and oats ¾¢ to 1¼¢  
@ 1½¢. In provisions the out-  
come varied from 2½¢ decline to  
a like advance.

Predictions that a free move-  
ment of new wheat was ahead  
drew special attention to the fact  
that there was no diminution ap-  
parent in the movement of old  
wheat, and that the northwest  
markets as well as those in the  
southwest were receiving much  
more grain than a year ago.  
The situation in the final week  
of the old crop year was taken to  
indicate need of caution even in  
case the movement of new wheat  
should only be of normal volume  
for the season. Under such cir-  
cumstances, continuation of ad-  
verse weather for growth north-  
west and for harvesting south-  
west failed to stimulate buying.  
On the other hand the economic  
outlook was regarded by many as  
a bearish factor and with a  
threatened strike of elevator em-  
ployees tended to increase selling  
pressure, especially in the final  
half hour of the session.

Abnormally heavy stocks in  
eight did a good deal to force  
lower prices for both corn and  
oats.

Provisions averaged lower in  
sympathy with grain and hogs.

### SCOUT TROOP HOME FROM CAMPING TRIP

Number Four Troop, C. F. Ehrie Scoutmaster, Had Pleasant Week at Rotary Club House Meredosa.

Boy Scout troop No. 4 returned to Jacksonville at 9:25 Sunday evening after camping for a week at Meredosa. The boys had planned to return by motor truck, but were prevented by bad roads.

Scoutmaster Charles F. Ehrie, who accompanied the troops reported that all the scouts were enthusiastic about their outing. A regular program was carried out each day, with the troop divided into four groups. Leaders of these divisions were Martin Graef, Russell Cummins, Ernest Olds and Earl Hoover. John Hackett, a group leader from troops No. 2, was present throughout the week.

Arthur Bartlett as camp cook was usually the most popular man on the grounds.

IF IT HAD BEEN DONE.

Fifty-four years ago there was an attempt to establish a club or organization which would have for its object the beautifying and adornment of Jacksonville. There was considerable enthusiasm at the time but the move fell thru without accomplishing anything. The writer well remembers a meeting which he attended and which was addressed by the late Prof. J. B. Turner. Among other things he urged the planning of shade trees on each side of the principal roads leading into the city and stated that he would do the work for. He urged the organization to get busy and do something and if they wanted five dollars of him come and get it.

Had Prof. Turner's suggestion been carried out imagine the result it would have had.

### JUDGMENT AGAINST HAVERLEY BONDSMEN

K. of P. Lodge May Be Re-imbursed for Part of Funds Taken by Absconder.

Local Knights of Pythias will be interested in knowing that in a recent court hearing judgment was rendered against the Fidelity Guaranty Co. as bondsman for Mr. Haverley, absconder. Keeper of records and seals of the Knights of Pythias order. The judgment is for \$16,060.15, representing about one-third of the amount of the Haverley defalcation. The suit was brought in the circuit court of Macoupin county and the hearing was held before Judge Burton, the grand lodge being represented by John J. Reese of this city and Judge Vaughn of Carlinville. Both are past grand chancellors of the Knights of Pythias order.

Other suits are pending in Chicago and there is the possibility that the lodge may refund the greater portion of the sum of money that was stolen.

### RAIN DELAYS HARVEST WORK

The frequent rains have interfered with a good deal with the wheat harvest in Morgan county. While many farmers have finished this work, there are others with ripened fields where cutting cannot be done because it is too muddy for the passage of binder wheels. However, these instances are somewhat isolated and in the course of a very few days practically all of the wheat in the county will be in the shock.

The rain too, has been of great advantage on farms where there are chinch bugs. In fact the wet weather has drowned out the chinch bugs in many fields and so the rainfall has been a real blessing to bug infested farms.

### A FINE DISCOURSE

The sermon of Rev. George Stickney at the Congregational church Sunday was an exceptionally worthy effort. His theme was the abundant life and first he told how the Savior might have used His powers to become popular with the Pharisees and the people generally; how He might have pondered to the people and had a triumphant earthly career but He chose instead the life of labor, sorrow and crucifixion at the last but the world will profit by His abundant life.

The inference was obvious to all. Not Napoleon, Caesar, Alexander and other celebrities who have drenched the earth with blood have had abundant lives but those who have imitated the Divine Master.

### FROM JAMES HALL
